SCOTCH ALE MULTI AWARD WINNING

LINDEMAN'S FRAMBOISE*

Brouwerij Lindemans Belgium

STYLE: Lambic/Fruit **ABV:** 2.50%

Like a raspberry soda with a hint of yeast and black cherry. More sparkling wine-like than beer. For a fruit beer it is more fruit than anything else, but not too sweet in any way. Wonderful balance between carbonation and flavor. Great substitution for mimosa at brunches.

BITCHES BREW

WOOD AGED

Dogfish Head Brewery Milton, DE

STYLE: American Double/Imperial Stout **ABV:** 9.00%

Originally created to celebrate the 40th anniversary of Miles Davis breakthrough album with the same name, Nice roasty and chocolaty flavors start out like most stouts do. Flavor follow similarly to the nose with fig, raisin, and plum characters but the honey eventually takes over which gives it a great and different quality. Much like Jazz fusion, which blends different musical styles, Wood-Aged Bitches Brew is a fusion of three threads of Imperial stout aged on oak and one thread of Tej - a native African honey beer - aged on Palo.
